

Fully funded

New to Teaching Core Maths

Support for teachers new to teaching this qualification

What is involved?

This programme supports teachers in developing specialist knowledge for teaching Core Maths and increases their confidence in teaching the course. It involves a direct working partnership between the Maths Hubs Network and the Advanced Mathematics Support Programme (AMSP).

The principal focus is on Core Maths subject knowledge and pedagogy, and the programme will be based on six key themes: using contextualised problem-solving; applying Fermi estimation and modelling; developing critical analysis; making sense of finance; using the pre-release materials; exploring statistics. Technology and online teaching will also be underlying themes.

Who can take part?

This programme is for teachers who are in their first two years of teaching Core Maths and are teaching a Core Maths class during the academic year 2022/23.

Find out more

Search **new to teaching core maths** online or contact your local Maths Hub:

Contact: Tara Webster, admin@symathshub.org.uk

Benefits

- Your students will gain raised awareness of the use of maths and statistics in everyday life
- You will plan lessons/sequences of lessons to promote student understanding, confidence, and progress
- You will understand the philosophy of Core Maths, with its approach to maths through contextualised problem-solving
- You will understand how online learning and technology can be used to support Core Maths teaching

The **programme** is fully funded by the Maths Hubs Programme and the AMSP, so is **free** to participating schools.
