

Sept 2024

Welcome back! We hope you had a restful break and wish you a good term ahead.

Specialist Knowledge for Teaching Mathematics Programmes

Develop mathematical subject knowledge and understand the pedagogy that underpins the teaching of it!

We run many SKTM groups that we believe to be excellent foundations for learning and work brilliantly both alongside the Teaching for Mastery programme or just as standalone Professional Development. From Early Career Teachers within their first 3 years, to Primary Teaching Assistants who want to improve their subject knowledge, to Early years and Primary Teachers who want to get the pupils more involved we have something for everyone.

Follow the links below to have a read for yourself or recommend to someone within your department/school/trust.

Years 5-8 Continuity Work Groups

Work Groups focus on curriculum and pedagogical knowledge across the KS2-3 transition from Years 5 to 8.

Through genuine, cross-phase collaboration, participants gain a deeper understanding of how the maths in the primary curriculum develops in KS3, and how key concepts are developed and represented at KS2.

Exemplification of ready-to-progress criteria

These PowerPoints include links to relevant resources and pupil-facing activities. They are ideal to be used with small groups of pupils to review, practise, and consolidate learning. The five-minute video at the foot of this page demonstrates this in more detail.

Data Privacy

The South Yorkshire Maths Hub and Notre Dame high School collects and hold a certain amount of data about individuals involved in our work.

The data includes name, email address and establishment. The agreement between us and the Department of Education requires us to monitor and evaluate our work as a Maths Hub, and this is the legal basis for the data that we hold, on. Such data is reported on a regular basis to the NCETM and shared with those individuals and organisations who are providing Maths Hub Leadership in our region to enable them to communicate with participants. In addition, we use this data to keep in touch with you on professional development opportunities and related matters.

Newsletter registration

We collect and hold data of individuals who have registered to receive e-newsletters we send as part of our role in coordinating the South Yorkshire Maths Hub. The data includes name, school and email address. This data is used solely for distribution of newsletters and

Hub related communication and is not shared. Personal data held for the distribution of newsletters will be retained until such point that you contact us to request that we remove your data from this list.

If you have any questions or concerns around our privacy policy please contact data@notredame-high.co.uk
